

# RADON - Buying A Home: Get the Facts & Then Act

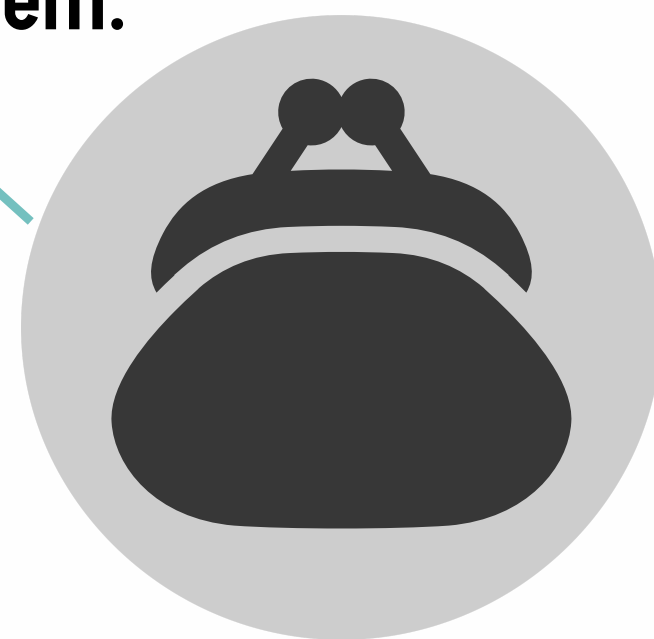

Exposure to radon is the second leading cause of lung cancer in the UK, after smoking

If you are buying a property, find out whether it is located in a radon 'affected area'

Speak to your solicitor about arranging a 'radon bond' so testing can be carried out after completion. If remedial works are required, this retention fund is used to pay for them.

If elevated radon levels are found, contact a radon remediation specialist to design & install a system to lower the levels.
